Lab 3

- All figures are in the "media" folder.

- You can have both the *.tex file and the *.pdf file open side by side and every time you save the *.tex file it updates the *.pdf file using extensions: *latex workshop, latex utilities*.

- The latex files (*.tex) in the other folders should have everything you need to format this file correctly.

- If you figure out Part 5, do it.

1. **Improved GPS Positioning**

   We did not do the bonus.

2. **Static Relative DGPS Positioning**

3. **Dynamic Relative DGPS Positioning**

   We did do the bonus here

4. **LAAS DGPS Positioning**

5. **WAAS DGPS Positioning**

   Unfinished
